

Adam says some stuff

Monday, 13 October 2025 15:24

single theme deep dive 8 min

look into what research groups to talk to

Further data transfer research

Thursday, 16 October 2025 11:20

Hollow Core Fiber Group

Storing data on transparent media - mesh laser

- Extension to existing scientific glass blanking

Professional Contexts Guest Lecture

Thursday, 16 October 2025 13:30

James Blackwell

- Curving in Guilford
- And 4 years ago (21)
- writing down for 2-3 year - Lyndall
- new job 2021
- 'porridge' gene team
- p1cy 360.01 - Gene City - Angus gene esqne
- Geneticist $\Rightarrow$ develop role

debuter

begin: Still beam - lots of additional responsibilities
PMS - lots of opportunity to learn different things

- work in shelter
 - access of wider portfolio
 - independent / own work
 - self starting
 - Proactive with research

- make more employable
by being flexible

- now:
- ability to specialise
 - deeper understanding
 - faster and lower

Contribution by

- Learning how to communicate to:

1. direct senior
2. Summary of other disciplines
3. Provide message / key

1. use of technical language - respect the audience
2. Simplicity - explain what you want with context
 - communicate effectively
 - seek understanding (clear)

3. Get to the point - clear and efficient
 - also cannot not details unless relevant

Experienced things at work - communicating with peers

Part 1 follows

- Start now

- linked - part 1 and 2 - something specific

little bit all

connect with real people

- Networking

- Connect to relevant people in school
- Show your work

dev part solo

- Get help - make sure it's on track
- Clear direction - navigation

- Create a release - include something
- Show understanding of good practice

3D Artist Portfolio

Art Station - arranged over artist
↓
lead to start and thought

Portfolio artistic ability

Slow but you can take a concept and sell it very well

could be better design

↳ learn from your style

Slow case all hard skills used

↳ slow but steady as well

Slow in different systems - different history
in case so much

attention to detail

↓

detail is important BUT:

don't just add detail for the sake of it
think about how it fits with the
style

USE your research

Can slider can be used

Quality over quantity

Slow in speed but more pleasing layout

- Learn from

2 books

Understanding, Learning, Artistic

VT good but could be very

Soft skills

as important as technical - possibly more

- Communication
- Ability to say
- Put in your self
- Develop it - hard work
- Take criticism well
- Show improvement
- Listen!

-
- Stress not taken - this is more important
 - don't be overly defensive / push back too much

Interview points

- on time
- dress appropriately
- prepared with examples
- Eye contact
- Eye gaze with interviewer

more like the way conversation

Integrity

Compensable industry - need to stand out

decisions can be tough - sometimes can be wrong

Score creep is real and points can happen

Recording

Q and A

how to compete against people with specific skills?

- company prefer to provide junior roles to senior company.
- interview super super important

how should I be?

- focus on your interests
 - can expand your knowledge around it

What technical points are up in interview?

- in writing / take writing things and make it work in multiple ways
 - Given a few days
- Separate

Talk about interview technique and communication/working with other people in different positions. - side notes on imposter syndrome and coping/overcoming

- Given a few days
- Separate task

~ Second test

Can you set unity to run on a
smart TV

how much detail?

- not much luck to ask for clarification

what does your day look like?

- nothing in illustrator / Photoshop

- waiting for build

- some special bits

- more focused so more freedom

- given a task list - work through it

- hired for unity - they are - he unity
learn on the job - part of it

Adam moved - artist colleague

- learning on the job can be hard
but hopefully you will be given time for
this

Chen is not

- how to manage that

- Sometimes it has to happen

- not always...

- Some times it has to happen
 - but always under your control
-

- Would you deal with impostor syndrome?
 - You're never done with it
 - Communicate your worries.
 - Can be a real issue.
-

Find a company that you want
you want to work for
